Dear Judith,

RE: Stockport LINK response to The Stockport NHS Foundation Trust Quality Report 2009/2010

I write to you again as I have been asked by our LINK Core Group to ask for a reason why the statement produced by the Stockport LINK to the Foundation Trust Quality Report was not included. The LINK was asked to produce a statement as it was a requirement from the Department of Health and that it be included with the final report.

Nominated LINK members set aside time to attend a meeting for you to guide them through the report to ensure they understood the points made in the report. It was agreed at that meeting a response would be submitted to you, which was made and was sent to you and copied to the various bodies, a copy of which is enclosed.

Kind Regards

Maria Kildunne
LINK Development Manager on behalf of the Stockport LINK membership
